

PRIVATEER

Mountain Bike Syndrome

Claim your FREE issue of Privateer magazine RISK FREE

Privateer magazine is for mountain bikers who already know the obvious; for riders who have paid their dues in sweat and dust and broken bone, and are irrevocably hooked. You do not want to be told what to buy, how to ride or where to go. You much prefer to get closer to the spirit of the thing. We aim to remind readers why they got into mountain bikes in the first place and why they continue to love it.

Does this sound like you? If so, it couldn't be easier to try Privateer with our risk free offer. That's because, if after receiving your first issue you decide Privateer is not for you simply cancel before your second issue and we'll refund your money in full. What's more, we'll even include an extra free issue in your subscription. Customers selecting our Direct Debit payment option can subscribe today and get 4 issues for the price of 3, and pay only £25.50. If you prefer to pay by credit card, no problem. Take 7 issues for the price of 6 and pay as little as £54 in the UK, or just €90 for Europe or \$120 elsewhere, including all postage and packing.
